A step above...in Quality, Selection, & Designs

Quality

All our products are manufactured from the highest quality materials and undergo meticulous examination to ensure only the best products reach your door. We believe strongly in the quality, integrity, and reliability of our products and offer a lifetime warranty on all Jeffrey Alexander decorative hardware (see page 208).

Selection

Jeffrey Alexander offers 60+ patented and original collections plus a variety of industry standard designs in a wide range of styles and finishes. With extended lengths as well as appliance handles available in many of our collections, there's something for everyone.

Designs

Inspiration comes from the latest styles in interior design to the newest fashion trends on the runway. That inspiration is creatively transformed into beautiful hardware for any kitchen, bath, or home project. Our designs are heavier in weight with solid or flat backs, not hollow backs, adding a touch of luxury while providing a comfortable feel in your hand.

Pull Escutcheons

Pull Escutcheons are a low profile transition from existing 3" CC holes to longer 96 mm CC, or 4-1/4" CC to 128 mm CC. Paired with our most popular cabinet pulls, they virtually disappear once installed. A second pair can be used on the inside of the cabinet door to cover the back of the original holes.

For best results, use water and a mild soap with a soft cloth. Avoid glass cleaners, general kitchen/bathroom cleaners and other abrasive cleansers, as those cleaners could damage the finish.

Soap & Water Method:

1. Fill a bowl or sink with warm water and add a squirt of dishwashing liquid or olive-based soap. Swish the water around with your hand to make suds.
2. Dip a rag into the soapy water and wring it out.
3. Wipe the cabinet hardware with the soapy rag. For tough grime, dip a soft toothbrush into the soapy water and scrub gently.
4. Rinse the rag, wring it out and wipe the cabinet hardware to remove the soap residue.
5. Buff the hardware with a dry chamois cloth to polish and shine it.

Vinegar Method

1. For tougher cleaning, use a solution of one part white vinegar to one part water.
2. Moisten a rag with vinegar solution.
3. Wipe the hardware with the rag. If the rag becomes dirty, rinse the rag with water and remoisten with the vinegar solution.
4. Buff the hardware with a dry chamois cloth for a nice polish and sheen.
